**FOR IMMEDIATE RELEASE**

## **CORRECTION**

### **Solar Powered Radar Speed Limit Sign Installed on State Route 299**

**Redding** -- The California Department of Transportation (Caltrans) installed one solar powered radar speed limit sign on State Route 299 on December 20, 2005. The sign is located on **eastbound** State Route 299 as you enter Weaverville. The sign has the posted speed limit displayed on the top portion with a flashing changeable message sign indicating the speed of each motorist. The purpose of the sign is to make motorists aware of their actual driving speed compared to the posted speed limit when entering the town of Weaverville

The installation of these signs is a cooperative effort between Caltrans and the California Highway Patrol.

For more information please contact the Public Information Office at 225-3044.
